Locus Chandelier

By Cerno

Description

The Locus chandelier tells a story about our design journey. The wood and glass are in balance, exuding both strength and fragility. Wood is Cerno's signature material; the glass is fresh and new, designed and blown by Siemon & Salazar. Cerno and Siemon & Salazar became one company back in 2022. This product is a beautiful testament to what the two unique brands can create as design collaborators. Cerno, Co-founder, and Director of Design Nick Sheridan, describes the Locus chandelier as a moment frozen in time, where the dynamically linked system of parts is paused at a moment of harmony and symmetry.
