Conomavilla Color-Select Semi Flush Ceiling Light By Eglo

Description

The Conomavilla Color-Select Semi Flush Ceiling Light is a bold statement that redefines the standard LED flush mount. This 17-inch fixture features a striking black metal shade that provides focused, downward illumination, but its true distinction lies in the unique integrated LED ring positioned just above the shade. This design element casts a soft, ambient glow against the ceiling, creating a sophisticated inchhalo inch effect that adds depth and visual interest to your room. Equipped with 3CCT LED technology (3000K, 4000K, 5000K), it offers the versatility to select your preferred color temperature, making it a perfect blend of modern industrial style and advanced lighting performance.
