Moonscapes Wall Sconce

By Et2

Description

A triumph of scale, ingenuity, and light, the Moonscapes Wall Sconce transforms astronomical inspiration into an ethereal work of art. An organically shaped shade evokes the cratered terrain of the lunar surface with rich texture and depth. Edge-lit LEDs are seamlessly embedded within a metal band, filtering soft light across the surface with astonishing clarity. The result is an illuminated landscape that appears to float above the wall, creating a poetic focal point.
