Framed Color-Selectable LED Mirror

By Et2

Description

The Framed Color-Selectable LED Mirror blends form and function in this sleek mirror. Designed like a simple picture frame, a slim metal band caps the outer edge, enclosing a bright, even LED border. Two control buttons are located the shorter side. Button one turns the mirror on and off with a quick tap. Button two adjusts warmth of the LED color. Once on, short taps cycle through 3000K, 4000K, and 5000K LED colors. Press and hold to to tune the LED color. Mount horizontally or vertically.

Shown in black / mirror
