Vario Color-Select Chandelier By Golden Lighting

Description

The Yep by Golden Lighting Vario Integrated LED Chandelier delivers dramatic scale and refined contemporary elegance through a sculptural design defined by gracefully arched arms radiating from a central hub. Finished in Titanium Gold, the electroplated frame showcases a rich, saturated yellow-gold tone with a flawless mirror-like sheen that reflects light for a bold, luxurious presence. Each arm is finished with a clear glass diffuser that allows light to pass through with crisp clarity, creating a clean, timeless silhouette while softly revealing the integrated LED source. This chandelier makes a commanding statement in dining rooms, foyers, bedrooms, and expansive living spaces. Vario features integrated LED technology with a built-in 3CCT selector offering 3000K, 4000K, or 5000K color temperatures to customize ambiance.
