Cameron Color-Select Convertible Semi Flush Ceiling Light By Golden Lighting

Description

The Golden Lighting Cameron Integrated LED Semi-Flush Mount offers a refined interpretation of classic drum lighting with clean lines and balanced proportions. The smooth circular silhouette is accented by decorative chain detailing that adds subtle architectural interest while maintaining a composed, elegant profile. An etched glass diffuser gently softens the light, providing even ambient illumination ideal for a variety of spaces. This semi-flush fixture is well suited for entryways, bedrooms, kitchens, and living spaces with mid-height ceilings. Damp-location rated and sloped-ceiling compatible, it is fully adjustable and convertible. Integrated LED technology with selectable 3000K, 4000K, or 5000K color temperatures for flexible, energy-efficient lighting.
