Luminwood Color-Select Wall Sconce By Golden Lighting

Description

The Golden Lighting Luminwood Integrated LED Wall Sconce brings organic inspiration to a refined wall-mounted design. A circular layered clear resin diffuser is molded with natural wood-like impressions, creating texture and depth while maintaining bright, unobstructed illumination. The finish provides a luminous, mirror-like surface with warm undertones that enhances the sculptural resin form. This dry-location sconce is ideal for hallways, bedrooms, stairways, and accent walls. Integrated LED technology delivers 557 lumens with selectable 3000K, 4000K, or 5000K color temperatures for flexible, energy-efficient lighting.

Shown in polished nickel / clear
