Coral Bloom Chandelier

By Golden Lighting

DAMP

Description

The Golden Lighting Coral Bloom Integrated LED Chandelier presents a striking fusion of organic artistry and modern design. Featuring a low-profile circular silhouette, the fixture is defined by sculptural pressed clear glass shades that radiate outward like blooming petals, creating depth, movement, and visual intrigue. The textured glass softly refracts light, producing shimmering highlights and a warm ambient glow. The frame showcases a deep charcoal-black tone with a heavily textured, stone-like matte surface that adds an earthy, architectural presence. This chandelier is ideal for dining rooms, foyers, living spaces, and bedrooms.

Shown in black slate / clear
