Stela Integrated LED Outdoor Wall Light By Golden Lighting

Description

The Golden Lighting Stela Integrated LED Outdoor Wall Light presents a modern architectural design inspired by natural stone. Its gently curved profile and travertine-textured surface create a sculptural presence while maintaining a clean, contemporary silhouette. The integrated linear LED light source is discreetly recessed, producing soft, ambient illumination that enhances the fixture's form without visual clutter. The surface showcases subtle mineral texture, delicate pitting, and a smooth matte sheen that evokes the refined character of honed stone. This fixture is ideal for entryways, patios, garage exteriors, and architectural facades.

Shown in white travertine
