Whirl Dichroic Portable Floor / Hanging Lamp By Tom Dixon

Description

The Whirl Dichroic Portable Floor / Hanging Lamp is both stylish and versatile, making it a useful addition to any space. The hypnotically spiraling polycarbonate shade produces a myriad of dazzling reflections. These reflections are further enhanced by a dichroic lens, which divides light from the integrated LED into its constituent parts of the spectrum for a dazzling array of colors. A tripod base provides support when used as a floor or table lamp, and a hanging strap is also included to use the lamp as a pendant. The lamp's built-in LED light source is powered by a rechargeable battery, allowing it to be placed wherever it is needed to create the perfect atmosphere. Dimmer button located on base

Shown in black / silver whirl
