Solina 360 Horizontal Suspension with Remote Power

By PureEdge Lighting

Description

The Solina 360 Horizontal Remote End Feed Suspension is a 24VDC LED linear suspension which delivers clean, uninterrupted uniform illumination - ideal for modern architectural applications. Choose from two signature 360 lens styles: a diffused lens in a clear rigid tube which offers a smooth, continuous glow with a modern aesthetic, or the Cora Weave lens with a clear rigid tube which introduces a tactile element, showcasing a woven textile sleeve within a transparent housing. Both options provide seamless, 360 degree illumination and are available in 1' increments in 5 watt from 3' to 40' or 7 watt from 3' to 26'. Offered in multiple color temperature options, including Warm Dim (27D - 2700K which dims down to 1800K, or 30D - 3000K which dims down to 1800K). Available with 2.8 inch round or 4.6 inch round canopies at both ends, or several Vanishing Point options. Includes 12 foot coaxial cables (additional aircraft cables included for center support when fixture exceeds 4 feet). Note: Required power supply and optional accessories sold separately.

Specifications

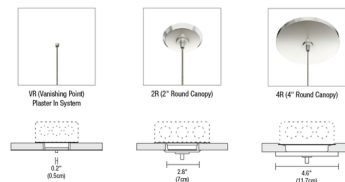

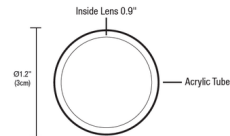

COLOR	Diffused Lens
BODY FINISH	Satin Nickel
WATTAGE	15W
DIMMER	Low Voltage Electronic
DIMENSIONS	36"L x 1.2"W x 1.2"H
