Arid Reading Wall Sconce By Bover

Description

The Arid Reading Wall Sconce is part of a modular system that aims to enhance the aesthetics of any interior with inspiration from the beauty and serenity of natural environments. The Reading Wall Sconce features a cylindrical shade which rotates 120 degrees in either direction and tilts up to 45 degrees from the wall to aim its light precisely where it is needed. Combine the Reading Wall Sconce with other pieces from the Arid collection to create custom arrangements. Note: The Arid Reading Wall Sconce does not cover a standard 4 inch US junction box. It can be installed as a surface-mounted fixture with a 2 inch wide rectangular junction box. The sconce can also be installed partially recessed into drywall with spring clips (not included). When used with the Arid Wall Tiles, the Arid Reading Wall Sconce must be recessed in order to sit flush with the tiles.

Specifications

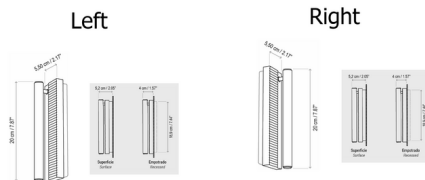

COLOR N/A
 BODY FINISH Olive Grey
 WATTAGE 2.1W
 DIMMER Low Voltage Electronic
 DIMENSIONS 2.17"W x 7.87"H x 2.05"D
