Eos Rechargeable Table Lamp

By Arteriors Home

Description

The Eos Rechargeable Table Lamp combines sculptural design with everyday functionality. Crafted from iron and topped with a natural alabaster shade, it emits a soft, radiant glow that gently diffuses light to create a warm and inviting atmosphere. This cordless lamp serves as both a practical lighting solution and an elegant decorative accent, bringing refined style and portable illumination to bedrooms, offices, and living spaces. Powered by a rechargeable lithium ion battery, it provides up to 6 hours of illumination on a full charge. The battery recharges in approximately 6 hours via the included USB-C magnetic cable, while a built-in indicator light conveniently alerts you when the battery is running low. Make sure the product is fully charged before its first use. Solid Red means the fixture is charging. Solid Green means the fixture is fully charged. Tap the touch dimmer on the base of the lamp to turn the fixture on and off. Touch to adjust the brightness. When the battery capacity less than 10%, the indicate light will flash and turn red to indicate re-charging is needed.
