Sonora Object

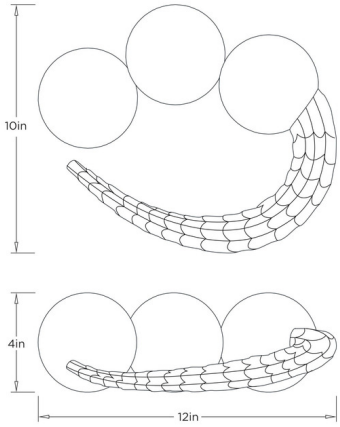

By Arteriors Home

Description

The Sonora Sculpture is a captivating study in contrast, pairing organic texture with refined natural materials. Three polished white marble spheres, each distinguished by unique veining and subtle tonal variation, are nestled against a coiled form adorned with a richly textured, scale-inspired surface and finished in a deep patinated bronze tone. Both sculptural and symbolic, this striking accent evokes the rugged beauty of the desert landscape while bringing depth, sophistication, and artistic character to any interior.

Shown in bronze / white marble
