# Compass Reading Wall Sconce

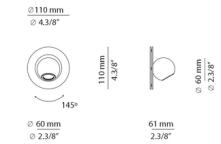

By Estiluz

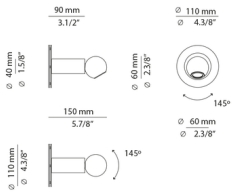

## Description

The Compass Reading Wall Sconce features a spherical lamp head which rotates up to 145 degrees horizontally to aim its light. Composed of the simple geometric forms of the sphere, circle, and cylinder, Compass will seamlessly blend in to a variety of interiors. It can be installed with the lamp directed downward for reading and task lighting, or upwards for indirect, ambient illumination. Note: Only the 2.4 inch size is ADA compliant. The 2.4 inch size includes a remote LED driver which can be housed in the junction box. The driver for the 5.9 inch size is housed within the body of the sconce. Both sizes include a 4.38 inch diameter backplate to cover a standard 4-inch US junction box (not pictured in some images).

Shown in beige

### Specifications

| | |
