## Compass Pendant

By Estiluz

### Description

The Compass Pendant is a spherical suspension that can provide ambient or accent lighting with its direct and intense light beam. The globe-shaped lamp is supported by a power cable and a steel suspension cable, allowing for precise positioning. While Compass can be installed on its own as a single pendant, it makes a strong statement in a grouping of multiple fixtures where the overlapping lines of the cables become a decorative element. The canopy can be installed on the wall or ceiling and includes a round cover plate for a standard US junction box (not pictured).

Shown in matte black
