Frame 120V Outdoor Bollard By Estiluz

Description

The Frame 120V Outdoor Bollard will add a modern accent to pathways, patios, and other outdoor spaces. The rectangular metal frame surrounds a transparent Pyrex glass diffuser which elegantly distributes light from the integrated LED. Frame is treated with a double-coated finish to resist corrosion from the elements. Note: Frame is intended for use on solid surfaces such as concrete; it is not suitable for installation on soil or grass. The driver is housed within the body of the fixture. A square base plate to cover a 4 inch junction box is included.
