Solina Vertex Static White 3-Part Suspension w/ Remote Power

By PureEdge Lighting

Description

The Solina Vertex brings together form, function, and style, while allowing you to become the lighting designer. Create visually impressive and unique installations by grouping multiple Solina channels with compositions from 2 to 7 fixtures in 1 to 5 foot lengths with 1, 2, 3 or 4 foot cable leads between fixtures. The innovative flexibility of the Solina Vertex means you can easily adapt the fixture's arrangement to any space in the field or make adjustments in the future if furniture or space orientations are changed. Each fixture creates a clean, uninterrupted beam of light through a 360 degree smooth diffused or distinct Cora Weave lens. The Solina Vertex is available in multiple color temperatures, including Warm Dim 3000K (30D) that dims down to 1800K. Available in 5 or 7 watts per foot with three 24 inch or 48 inch lengths with choice of canopy: 2.8 inch round, 4.6 inch round, VR (Vanishing Point with no visible canopy), or VM (Vanishing Point Millwork). Each channel includes two 12 foot adjustable coaxial cables and one power jumper cable. A remote power supply is required and sold separately.

Specifications

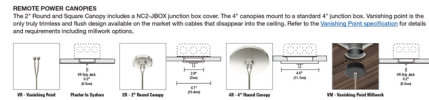

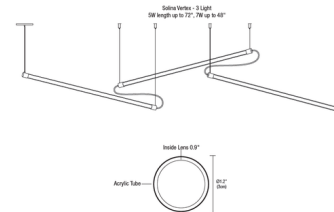

COLOR	Diffused Lens
BODY FINISH	Satin Nickel
WATTAGE	10W
DIMMER	Low Voltage Electronic
DIMENSIONS	24"L x 1.2"W x 1.2"H
