Iris Color-Select Ceiling Light w/ Infrared Motion Sensor

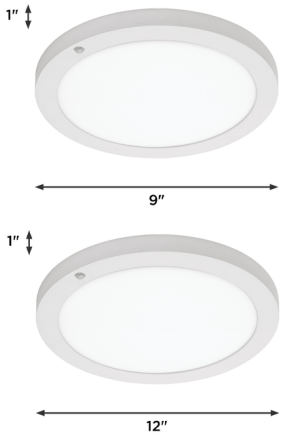

By AFX

Description

The Iris Color-Select Ceiling Light w/ Infrared Motion Sensor is an ultra low profile option with high functionality. Motion and light sensors make this the perfect choice for an indoor utility space. LED color selectable options include 2700K, 3000K, 3500K, 4000K, and 5000K.Note: Infrared and Motion SensorPIR Motion Sensor: When motion is detected under dusk conditions, the fixture will switch to 100% brightness for the duration of the selected standby time. Otherwise, the fixture will remain OFF until motion is detected during dusk conditions.Photocell: The fixture includes an integrated photocell for dusk-to-dawn operation. When sufficient ambient light is detected, the fixture remains OFF. When ambient light falls below the threshold, the fixture turns ON to 100% brightness and then transitions according to the configured standby time and lumen settings per the chart.
