Floating Cloud Vase Set of 3

By Currey & Company

Description

The Floating Cloud Vase Set features three luminous vases handcrafted from mouth blown Venetian glass. Each piece is created through a sophisticated collaborative process in which one artisan shapes the textured gray glass while a second expertly layers white and soft blue glass into the molten form, creating a delicate, cloud-like effect. The result is a harmonious blend of subtle color and organic texture that celebrates the artistry of traditional glassmaking.Because each vase is individually handcrafted, slight variations in pattern and tone ensure every set is uniquely one of a kind. These items are not water tight.
