Architectural Remnant II

By Currey & Company

Description

The Architectural Remnant II is crafted from composite with an antique white finish, featuring a Gothic inspired window set within a pointed arch. The design evokes the appearance of a weathered stone fragment, as though carved from the depths of a cavernous architectural structure. Lightweight yet striking, this decorative accessory brings a sense of historic grandeur and architectural drama to any space. Due to its artisanal finish, subtle variations in texture and surface detail may occur, making each piece uniquely its own.

Shown in antique white
