Jejune Vase

By Currey & Company

Description

The Jejune Beige Large Footed Vase is an impressive oversized urn-shaped vessel that stands 25 inches tall. Its beige surface is adorned with swirling patterns of brown that are created during a terres meles production process when the two colors of clay are overlaid while the vase is spinning. This means the pattern will show on the inside and outside of the vessel, which is not watertight and is for indoor use only. Due to the artisanal treatment, the surface of each accessory could differ slightly.

Shown in beige / brown
