Lonely Albatross Sculpture

By Currey & Company

Description

The Lonely Albatross Sculpture is a stylized tribute to the iconic coastal bird, long regarded as a symbol of sailors and the open sea. Crafted from composite in soft light and dark beige tones, the sculpture features subtle variations in its finish, with richer texture concentrated around the base, beak, and tail to create a beautifully layered patina. The result is a timeless decorative accent with expressive character and artisanal appeal. Because each piece is individually finished, slight variations in color and surface texture make every sculpture uniquely its own.
