Faux Rock Crystal Sculpture

By Currey & Company

Description

The Faux Rock Crystal Medium Sculpture captures the raw beauty of natural crystal formations with a contemporary interpretation in soft purple hues. Inspired by the dramatic shapes of stalagmites found in ancient caves, each sculptural piece is crafted from composite to replicate the jagged texture and dimensional character of rock crystal. Mounted on a stacked optic crystal base, the organic form is beautifully contrasted by crisp, architectural lines.Subtle variations in color saturation and surface detail ensure that every sculpture is uniquely one of a kind, reflecting the artisanal nature of its craftsmanship.
