DESCRIPTION

The Bulb Fiction Pendant is close to the original Edison Bulb, but the classic shape has been upscaled and designed as a whole unit, uniting socket and bulb into one shape. The fixture creates the allusion of a classic incandescent bulb, hides the low energy light source and ensures a comfortable, soft light. It works beautifully as a single lamp, but it also looks fantastic when hung in a cluster, in a straight line or in staggered formations. The lamp makes it possible to play with the design by means of tying knots in the cord or by gathering several lamps together to form a modern chandelier. Available in White with a White cord. One 42 watt 120 volt mini CFL/medium base bulb is required, but not included. 5 inch diameter x 8 inch height x 118 inch maximum length.

Shown in: White / White

SHADE COLOR	White
BODY FINISH	White
WATTAGE	42W
DIMMER	Not Dimmable
DIMENSIONS	118"L x 5"W x 8"H
LAMP	1x CF Straight Tube/G24q-2/42W/120V Compact Fluorescent
