Gatto Sculpture

By Currey & Company

Description

The Gatto Sculpture features a lifelike expression and authentic details, making it a striking accent for a desk, bookshelf, or display. Finished in black bronze, each piece is created using a meticulous multi step lost wax casting process that captures exceptional depth and character. Once cast, the artist applies carefully considered finishing touches, including hand polishing and refined surface treatments. A polished goldfish nestled in the cat's paws provides a beautiful contrast, adding warmth and visual interest to the design.

Shown in black bronze
