Cilia Floor Lamp

By davidpompa

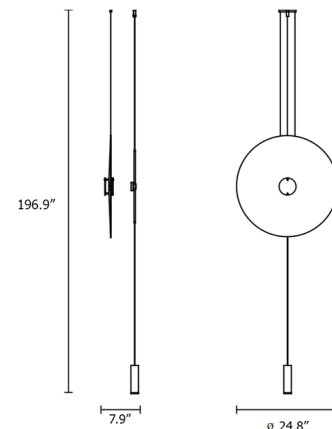

Description

The Cilia Floor Lamp features a round shade made of handwoven palm suspended from the ceiling. The light source is located behind the shade, also suspended from the ceiling but anchored to the floor with a weighted cylindrical base. This innovative floor-to-ceiling design creates a visually light but sculptural expression that incorporates handmade craftsmanship with precise engineering. The power cord emerges from the cylindrical floor base, and a dimmer switch is located on the cord.

Shown in black / woven palma

Specifications
