Filigrana Table Lamp

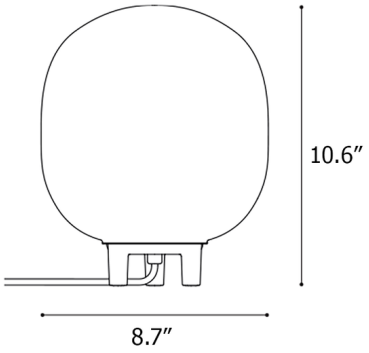

By Established & Sons

Description

The Filigrana Table Lamp is an artisanal piece made of acid-etched, mouth blown glass using the filigree technique, which dates back to the 16th century. Colored glass stripes are rolled into the surface of each shade to create an enchanting, candycane pattern. The glass softly diffuses light to produce a warm, welcoming glow. Each fixture possesses slight variations due to the handmade production process. Dimmer switch located on cord.

Shown in arctic grey / blue canes

Specifications
