Filigrana Portable Lantern

By Established & Sons

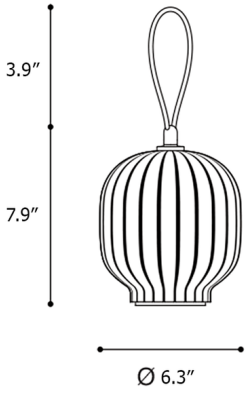

CE

Description

The Filigrana Portable Lantern is an artisanal piece made of acid-etched, mouth blown glass using the filigree technique, which dates back to the 16th century. Colored glass stripes are rolled into the surface of the shade to create an enchanting, candycane pattern. The glass softly diffuses light to produce a warm, welcoming glow. A built-in rechargeable battery and touch dimmer allow Filigrana to be placed wherever it is needed to create the perfect ambiance. Each fixture possesses slight variations due to the handmade production process.
