## I-Club Table Lamp

By LZF

### Description

Nothing comes close to the beauty of these veneers as a diffusion material and no other veneer treatment gives the strength and the protection to the material with out sacrificing the delicacy and subtleness that this natural material communicates when illuminated. Like the sophisticated big city clubs from which it takes its name, the I-Club is all about style and attitude. Designed by German born Burkhard Dmmer, there's something wonderfully Teutonic about the I-Club's clean lines, sleek form, and modernist aesthetic. On/Off Switch on cord.

Shown in brushed nickel / pale rose

### Specifications
