## Makena Pendant By Mitzi

### Description

Makena steps boldly into the realm of play with its swooping curves and mixed materiality. Along the dramatic swag, white oak wood spheres are strung like beads on a necklace. A large cloud glass orb dangles at each end, supported by an Aged Brass fitter. Makena adds an air of whimsy wherever it is placed.\*Due to the one-of-a-kind nature of the medium, exact colors and patterns may vary slightly from the image shown.

Shown in aged brass / cloud
