Wraparound Pendant

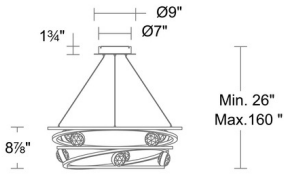

By Schonbek Beyond

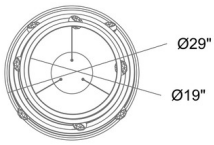

Description

The Wraparound Pendant is a captivating statement of sculptural elegance, evoking the fluid motion of metal frozen in time. A cascade of concentric spirals appears to gently twist through the air, each graceful curve adorned with faceted crystal infused with Radiance Crystal Dust for exceptional brilliance. Integrated LED illumination accentuates the pendant's dynamic silhouette, casting shimmering reflections that animate every spiral and bring depth and movement to the surrounding space. The driver is concealed within the canopy.Note: Dimmable with Triac or Low Voltage Electronic dimmers, sold separately.

Shown in aged brass / radiance crystal dust

BPD40629-TWA
