Josefina Bathroom Vanity Light

By Schonbek Beyond

Description

The Josefina Wall Light draws inspiration from the chiseled geometry of alpine terrain, translating rugged natural forms into a refined sculptural design. Faceted planes infused with Radiant Crystal Dust capture and refract light, creating a shimmering glow reminiscent of sunlit ice. Interlocking geometric forms define a bold architectural silhouette, bringing striking contrast, depth, and radiant dimension to the wall. May be mounted horizontally or vertically. The driver is concealed within the backplate. Notes Dimmable with Triac or Low Voltage Electronic dimmers, sold separately. No Aged Brass finish in 16 inch height.

Specifications
