Pickwick Color-Select Wall Sconce

By Schonbek Beyond

Description

The Pickwick Wall Sconce introduces a sense of vertical elegance to contemporary interiors with its elongated, stiletto inspired silhouette. A faceted Optic Haze Quartz crystal takes center stage, revealing organic veining and subtle translucence as light moves through its natural beauty. A raised, banded metal detail embraces the crystal at its center, adding sculptural refinement and a touch of architectural tension to the design. May be mounted horizontally or vertically. Notes Dimmable with Triac or Low Voltage Electronic dimmers, sold separately. Built in color temperature adjustability. Switch from 3000K/3500K/4000K/5000K.
