Field Square Warm Dim Wall Sconce

By SIN

Description

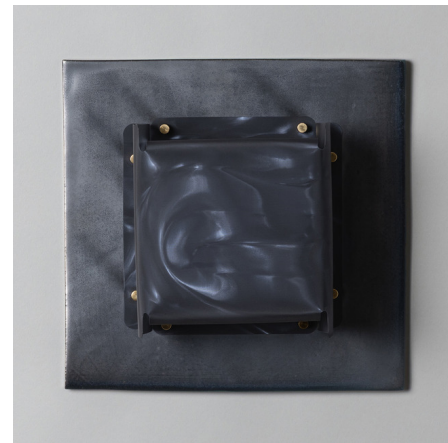

The Field Square Warm Dim Wall Sconce distills style into a compact architectural form. Handcrafted ceramic is paired with considered diffuser and hardware finishes, each subtly shifting the overall style. Designed to hold light rather than simply emit it, the Field offers a soft, immersive glow that changes with material, surface, and diffusion. Mounts as a wall sconce or ceiling flush mount, adapting to the lighting needs of a space. Note: Warm dim range 2200K-3000K. 120V dimmable with TRIAC and ELV dimmers. 277V dimmable with 0-10V dimmer. METALLIC GLAZE AGING AND VARIATION The Obsidian and Graphite glazes contain reactive metallic compounds that naturally oxidize, causing their hue and sheen to evolve over time. Expect soft mattifying, darker tones, or a gentle reduction in luster, beautiful changes that make each handmade piece uniquely alive. These subtle shifts are part of the glaze's natural character, not flaws.

Specifications

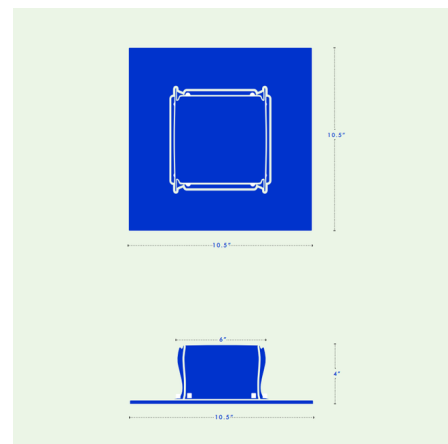

COLOR Moire Polycarbonate
BODY FINISH Graphite
WATTAGE 12W
DIMMER Standard 120V
DIMENSIONS 10.5"W x 10.5"H x 4"D
INTEGRATED LED MODULE 1 x LED/12W/120-277V LED
COUNTRY OF ORIGIN United States
