Molecule Knit Chandelier

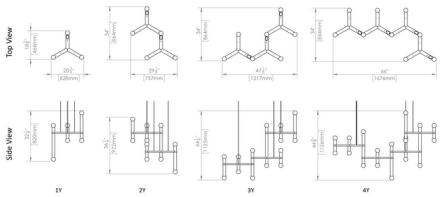

By hollis+morris

Description

Inspired by the dynamic bonds of atomic structures, the Molecule Knit Chandelier explores the intersection of nature, design, and illumination. Based in the patterns found in molecular forms, this sculptural chandelier is composed of plated Y-shaped connections that form the bonds in a larger whole. The vertical cylinders are covered with Byborre fabrics for an eye-catching pop of color and texture. Includes round canopy finished in white and LED driver to be housed within the junction box.

Shown in alina

Specifications

COLOR	N/A
BODY FINISH	Alina
WATTAGE	15W
DIMMER	Low Voltage Electronic
DIMENSIONS	20.75"W x 32.25"H x 18.38"D
