Abby Color-Select Outdoor Wall Light

By Alteck Lighting

Description

Combining stone and metal accents, the Abby LED Wall Sconce is a refined, classic statement piece. A saw-cut travertine plate creates the stunning backdrop, with a backlit painted brass piece that seems to float in front. When illuminated, the light flows downward below the sconce and outward across the stone surface, highlighting the unique and stunning natural texture. Perfect for both indoor and outdoor applications. LED color selectable options include 2700K, 3000K, 3500K, 4000K, and 5000K.

Shown in painted antique brass / travertine
