Kute5 Smart Ceiling Fan with Double Walled Light By Fanimation

Description

The Kute5 Five Blade Smart Ceiling Fan with Double Walled Light blends contemporary styling with powerful performance and added stability from its five-blade design. Unlike the original Kute, which features a three-blade silhouette, the Kute5 offers a more traditional look with enhanced airflow balance, perfect for both indoor spaces and covered outdoor areas. Its energy efficient DC motor delivers quiet operation and impressive performance, reaching up to 6,719 CFM across six variable speeds. This model comes equipped with a 16W integrated LED light kit housed in an elegant double walled glass diffuser. With CCT Select technology, you can choose from five color temperature settings (2700K to 5000K) and enjoy high quality illumination with a 90 CRI and a brightness of 1,600 lumens. Smart home integration is seamless with built in fanSync Wi-Fi and an included TR360 handheld remote for easy control from your smartphone or voice assistant. Finished in a wide selection of motor and blade combinations from brushed satin brass to weathered wood, the Kute5 brings a timeless, tailored look to any room. With its five-blade profile and flush mount versatility, it's the ideal fan for those who want a bit more presence without sacrificing efficiency or modern features.
