Spitfire Flush Smart Ceiling Fan with Light By Fanimation

Description

Transform your space with the flush-mount Spitfire Flush Smart Ceiling Fan with Light, a sleek indoor/outdoor ceiling fan designed for customizable style and efficient performance. This version includes an integrated Double-Walled Marine LED light kit with CCT Select technology, offering five selectable color temperatures 2700K, 3000K, 3500K, 4000K, and 5000K so the light can shift from warm and comfortable to bright daylight. The included TR306 handheld remote provides easy control of fan speed, reversing, light dimming, and CCT selection, while Wi-Fi enabled fanSync technology allows control from a compatible smart device, voice assistant, or the fanSync app. Fanimation's KwikWire technology makes wiring the receiver quicker and easier by replacing five wire-nut connections with two simple connectors. Damp rated for indoor and covered outdoor use, the Spitfire brings streamlined design, smart control, and flexible lighting options to a wide range of spaces. Note: Not all options available.
