PH 2/2 Question Mark Table Lamp

By Louis Poulsen

Description

Originally designed by Poul Henningsen in 1931, the PH 2/2 Question Mark Table Lamp takes its name from its elegantly curved brass stem. Over 80 years later, it remains perfectly suited for use on a bedside table, as well as side tables, desks, and more. The lamp is instantly recognizable as a Poul Henningsen design thanks to its three-tiered glass shade that provides soft, glare free light. The lamp head can be angled up to 45 degrees to direct its light for reading and other tasks, and a convenient on/off switch is located on the base.
