Float Arc Floor Lamp w/Marble Base

By Nova of California

Description

The Float Arc Lamp is a modern arc lamp designed by Peter Morelli in 1960, continuing NOVA of California's century of lighting craftsmanship. With its sweeping, gracefully arched silhouette, this lamp makes a striking statement in any living room or home office. Crafted from steel, it features a drum shade that diffuses light evenly, creating a soft, ambient glow. The marble base not only provides a sturdy foundation but also adds a touch of elegance with its unique veining, making each piece distinct. This lamp is equipped with a built-in dimmer switch located on the column stem, allowing you to adjust the light intensity to suit your mood or occasion. Note: Not all options are available
