Scallop Wall Mounted Arc Lamp

By Nova of California

Description

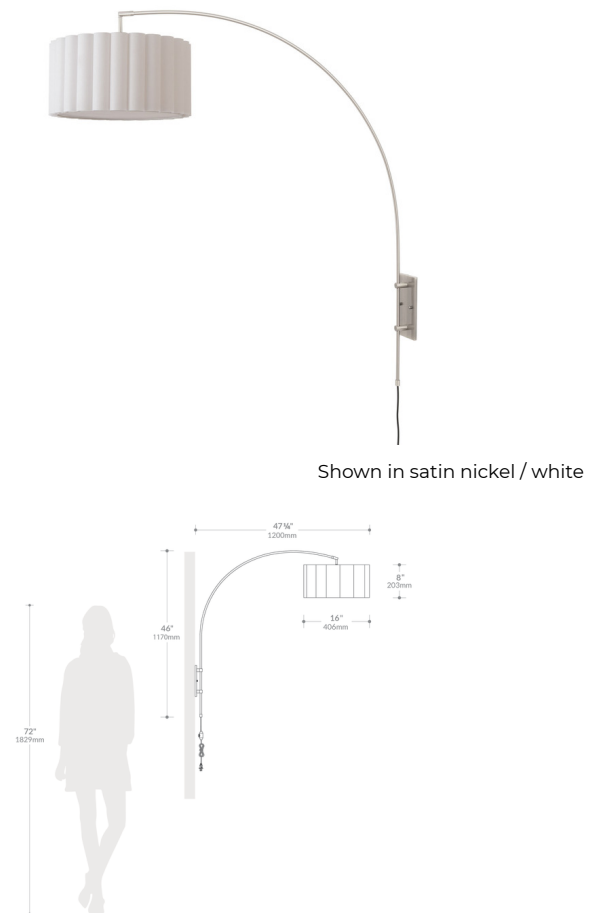

The Scallop Wall Mounted Arc Lamp is a modern lighting solution designed by Peter Morelli in 1960. This innovative wall-mounted arc lamp features a steel body and base, complemented by a white fabric drum shade. Its sleek design and premium materials bring a contemporary touch to any space, whether in a living room, bedroom, or home office. The lamp's cantilevered reach provides overhead lighting without occupying floor space, making it ideal for reading nooks or as a bedside lamp. The white fabric drum shade is equipped with an opal diffuser, which softens the light and creates a warm, inviting atmosphere. Equipped with a floor foot slide dimmer, the Scallop Arc Lamp offers adjustable lighting to suit any mood or occasion.
