Beckett Rectangle Color-Select Mirror

By Savoy House

Description

What's better than one source of light? Two sources of light, which is what you get with the Savoy House Beckett front and back lit rectangular LED mirror. Discover illumination from all angles and convenient controls at your fingertips! Choose from three different color temperatures - 3000K, 4500K and 6500K - to find the perfect glow. Use the stepless dimmer to increase or decrease the brightness. Keep things clear with the defogger, which shuts off automatically after one hour. For even more convenience, Beckett remembers and restores the last used illumination setting! This mirror is free from lead and copper, comes with mounting hardware and is backed by a 3-year warranty. Can be mounted horizontally or vertically.
