Beckett Rectangle Color-Select Mirror w/Frost Frame

By Savoy House

Description

The Savoy House Beckett front and back lit rectangular LED mirror delivers layered illumination, modern convenience, and versatile functionality in one streamlined design. Integrated front and back lighting provide even, flattering illumination from multiple angles, while three selectable color temperatures 3000K, 4500K, and 6500K allow you to tailor the light output to suit your needs and preferences. A stepless dimmer offers smooth brightness adjustment, and the built-in defogger automatically shuts off after one hour for added convenience. Beckett also remembers and restores the last used illumination setting for a seamless everyday experience. This lead- and copper-free mirror includes mounting hardware and is backed by a 3-year warranty. May be mounted horizontally or vertically.
