Buster + Punch Complete Metal Dimmer - Overstock

By Buster + Punch

Description

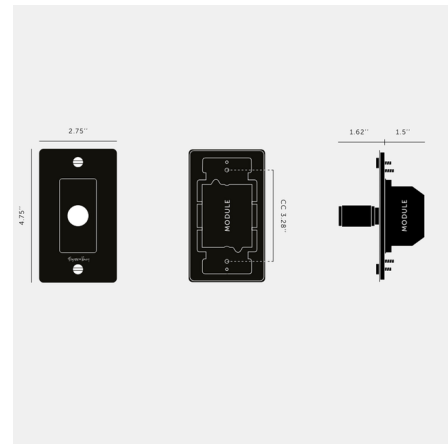

The Buster + Punch Complete Dimmer is made from solid metal with a diamond cut knurled knob. Works exclusively with the Buster + Punch range of wall plates, dimmer knobs and detail kits. Operates with a push on/off rotary dimmer action for pinpoint dimming accuracy and can be used with single pole or 3-way circuits. The dimmer module has intelligent load matching to enhance compatibility, while minimizing noise and flicker. It can be used on a lighting circuit that powers dimmable LED, low voltage bulbs, LED drivers and it is optimized for use with all Buster + Punch dimmable light bulbs. The dimmer module has a max load of 250W for LED and 300W halogen or incandescent light sources. Fit this dimmer as the only switch on a single-pole circuit, or to control your lighting from two locations on the same circuit, use this dimmer switch and one 3-way on/off switch. The Complete Dimmer includes push On/Off rotary dimmer module compatible with 3-way switching, wall plate, and detail kit. Dimmer has a 1/8 inch shadow gap when installed. Available with or without a Buster + Punch logo. NOTE: This dimmer module is not a 0-10V dimmer and is not compatible with retractive switches, non-dimmable LED lamps, fluorescent and energy-saving bulbs and tubes, electric motors, and fans. Learn more about Buster + Punch Electricity Collection [here](#).
