Python Seagrass Basket

By Jamie Young Company

Description

The Python Seagrass Basket takes inspiration from the distinctive baskets found in ancient tales of snake charmers, reimagined as a sophisticated and decidedly modern accent. Woven from fast-growing natural seagrass, each basket reflects the skill and artistry of the artisans who craft it, making every piece uniquely its own. Embrace its organic character by filling it with pinecones, dried lavender, or other natural elements, or pair it with pottery in complementary tones to create an earthy, collected arrangement. Natural variations in color, texture, and shape ensure that no two baskets are exactly alike, celebrating the inherent beauty of the seagrass fibers.
