Colt Chandelier

By Visual Comfort Studio

Description

The Colt Chandelier takes a crisp, sculptural approach to modern lighting, defined by a streamlined ring silhouette that makes a confident visual statement. Refined to its essential elements, the design relies on proportion, form, and subtle contrast to create a precise, contemporary presence. A steel frame is paired with an acrylic diffuser, concealing an integrated LED light source. Evenly distributed along the ring, the light creates a smooth, continuous glow, while a considered contrast detail adds depth and a tailored finish. Sloped ceiling to 28 degrees maximum.

Specifications
