Arcus Color-Select Chandelier

By CWI Lighting

Description

Designed for both beauty and grace, the Arcus Integrated LED Chandelier with Handcrafted Glass features panels of handcrafted glass, each one bringing subtle variation and artisanal character to the design. The glass appears to float along the sculptural arc, creating depth, movement, and a refined visual rhythm. Included with the chandelier is a sleek remote that allows you to adjust the color temperature from a warm 2700K glow all the way to a crisp 5000K light. Ideal above a dining table, kitchen island, or in a dramatic entryway, Arcus brings balance to bold geometry and artisanal detail. Its design is contemporary yet timeless, offering visual impact without excess. This is lighting designed to elevate a space with quiet confidence and considered craftsmanship.
