Contour Color-Select Wall Sconce

By CWI Lighting

Description

Refined and sculptural, the Contour Wall Light brings a sense of modern artistry to interior spaces. Its linear form is accented by a distinctive angular transition. An elongated diffuser of handcrafted glass introduces rich texture and subtle variation, enhancing both the fixture's visual interest and light diffusion. Designed with integrated LED, Contour features five selectable CCT options (2700K, 3000K, 3500K, 4000K and 5000K), allowing the illumination to be precisely tailored from a soft, inviting glow to a brighter, more contemporary light. Intended for indoor use, this wall light serves as both a functional source of illumination and a refined design statement for hallways, accent walls, and curated interior settings. Dimmer switch on frame.
