Contour Outdoor Color-Select Double Wall Sconce

By CWI Lighting

Description

Sculptural and architectural, the Contour Wall Light redefines linear illumination with a refined sense of movement. Its elongated form is subtly articulated by a geometric bend, finished in a sophisticated sand black that complements both modern interiors and elevated exterior settings. The handcrafted glass introduces texture, creating depth and visual intrigue when illuminated. Designed with integrated LED, Contour offers five selectable CCT options (2700K, 3000K, 3500K, 4000K and 5000K), allowing the light to be tailored from warm ambiance to crisp, contemporary brightness. Engineered for versatility and durability, it transitions seamlessly between indoor and outdoor environments while maintaining a distinctly luxurious presence. This is a refined expression of craftsmanship and light. Dimmer Switch on backplate.
